May 30, 2008

Dear Mr. Reens,

We are writing to let you know how pleased and satisfied we are with our new REENSAIR Humidification System! Our piano now stays in tune and it is a pleasure to play, without having to worry about calling the tuner earlier than planned! The house is comfortably humidified during the cooler months, and we have found that we are getting fewer if any, colds! The basement installation is efficient and compact. We feel very fortunate to have this system, and we are grateful to you for your careful work in customizing the system to the particularity of our home.

We would recommend REENSAIR to anyone interested in humidifying their home and would be happy to speak to them upon request.

Thank you, once again, for bringing REENSAIR to our home.

Sincerely,

GB & SC in Westport, CT
